2004 Application – SENATE COMPUTER

Legislative Internship Program – Computer Internship

January 7 – March 11, 2004

Application Requirements & Instructions

Please carefully read through ALL the information below:

Submitting an application: Consult your campus intern coordinator for school application deadlines. (Some schools screen applicants before referring them to the program and have an earlier application deadline.) Because requirements differ among schools, interested students should contact their school advisors early. In most cases the school intern coordinators will collect and forward application materials. All materials are due in Olympia on October 30 in the year prior to the session for which you are applying. Late applications will be held for possible review. Generally, interviews take place on campus in November. Applicants will complete a short writing exercise in connection with the interview.

Applications are received by House and Senate intern coordinators who determine acceptance and placement. The application review process takes into consideration the applicant's academic qualifications, work experience, recommendations, writing samples, and personal interview. Additional materials required: In addition to the application, the following are required: cover letter, resume, written essay, and two letters of recommendation. (Include name, address, and telephone number of the people writing the letters of recommendation.) One letter should be from a faculty member and speak to the applicant's skills and abilities. The second letter should address the applicant's character and be from a personal acquaintance (i.e., long time friend, high school teacher, scout leader, etc.) **Applicant must arrange for a faculty sponsor.**
